

The dust is beginning to settle this year, with only eight weeks left. I cannot help but be humbled and grateful that God used us all as a team. Yes. It includes you. Without God using you to pray and finance our ministry, there would be no Gospel of God Ministries, and no training of evangelists and the church lay persons. There would be no supplies to our leaders, giving them what they need. There would be no funding for evangelists so they can go out and share the Gospel of hope with broken, lost people. There would be no video and audio team producing content to help encourage your faith in Jesus. There would be no babies being saved from the horrific murder of abortion. There would be no opportunity to speak with unbelievers in the open air because the evangelist would not be out sharing. There would be no curriculums that have trained thousands since we founded this ministry in 2009. There would be no Christian encouraged by the public proclamation of God's word.

However, there is all of this because of your faithful giving and praying. Thank you.

This newsletter will cover some of the places our teams have been this year and the training and preaching we got to do. We will also give a harvest field report and provide an update on my family on the back of the newsletter.

## Harvest Field Report

- 625,000 people have heard the Gospel so far this year
- 547 teams have gone out to share the Gospel
- 12 Babies have been saved from death. Keep praying!
- 27,855 tracts have been given out
- 52 people have been trained in evangelism
- 35 Bibles have been handed out
- 115 people said they are Christians only 5 could share biblically sound Gospel.
- 1,098 Individual Gospel conversations

### Jeremiah 31:33

I will put my law within them, and I will write it on their hearts. And I will be their God, and they shall be my people.

## I The Lord Have Spoken

I am reading the book of Ezekiel right now, and as I was reading this morning, the last five words of Ezekiel 5:17 stuck in my mind and heart, “I, the Lord, have spoken.” In this context, the truth that the Lord had spoken to Israel and Judah was judgment. Because they had sought other gods and sacrificed their children to these other gods, God would judge them with pestilence, the sword, and famine. The above paragraph is sobering and heart-wrenching. Nevertheless, the last five words of seventeen should encourage us and humble us.

It should encourage us because the Lord has spoken; we can take His truth to His creation and allow them to respond to the mercy found in Jesus. This year, we went to the Middle East to encourage missionaries because the Lord has spoken. We traveled to different states and towns throughout America this year, from Hollywood, California, to Fort Myers, Florida, because God has spoken. This year, we taught and preached in Maputo, Mozambique, because God has spoken. There is a standard—the Bible—that everyone will submit to now or be judged later.

It is our job as a ministry to humbly take this word to them and give them the opportunity right now to believe in Jesus. We need urgency and brokenness over our sins and our nation’s sins.

## Our Time At The Fair And Finishing Strong

We sent nine different teams out to the state fair this year. Over 100,000 people heard the Gospel from our teams this year. Over 7,000 tracts were given out. Many Christians were encouraged in their faith, unbelievers asked about true salvation, and mockers hurled insults.

Our need to finish strong financially has never been more critical with the goals we have set for our ten-year vision. We are behind on our faith budget this year, around 65k. Please pray about how God would have you be a part. God is so faithful we cannot doubt Him now; if you know of anyone who needs to know about GGM, email us below.

## Our Trip To The Middle East

We were able to go in and encourage missionaries who are working through how to start an international church. They sacrifice creature comforts when serving the Lord in their context. The physical heat in the Middle East, at sunset and hours after, can still be 95 degrees. The A/C units do not work, so they mostly sleep and live in non-air-conditioned homes. They open the windows to let the air in, and the house fills with dust and noise from the street below.

At times, people blare loudspeakers containing the reading of the Qur'an right toward their homes. It can blast eight hours a day when people find out the missionaries are not Muslim. This is part of living as a missionary in the Middle East.

## Our Time In Mozambique

The picture on (Pg 1) is of two churches that came together for an evangelism conference that I led on how to share their faith with opposing beliefs. The older guy on the far right of the picture (Pg 1) thanked me for making the teaching so clear and full of practical application. This is very humbling. Thank you for allowing me to go over and serve the body of Christ this way.

We also got to be a part of advising on a water project that will bring water to a village without water since 2019. The government has forgotten about these people and their needs, but Jesus has not. This will be a fantastic opportunity to talk about Jesus, the true living water that gave this village their needed physical water. Here is a picture of a local pastor sharing that truth with the village.

# Merry Christmas

*From our family to yours; we hope everyone remembers and celebrates the birth of Christ this Christmas season.*

Ella will be turning eighteen this year, and she is now a certified EMT and is currently working through a local EMT Cadet program. She cannot officially work as an EMT until she is eighteen but hopes to become a part-time EMT. She will attend one of the local Community Colleges to finish her Associate's In Science. She will transfer to East Carolina University to complete her BS In Nursing. Her love for animals continues growing, and she has a part-time job working at a dog-sitting company. She enjoys spending time with her boyfriend, Daniel, and being outside hiking, hunting, and boating.

Emily is twelve this year and is in the sixth grade. She also started a new school this year and has adjusted quite nicely. She made the volleyball team, and her team won their championship and conference game in 1st place! Emily has had a minor hiccup in her health. She has been diagnosed with Wolfe Parkinson's Disorder. She will have a procedure soon to take care of this issue. The procedure has a 98 percent success rate. Please pray for Emily that the procedure will be a success and that she will recover well. Regardless of what she is going through, she still loves hanging with friends, shooting guns, and wants to kill her first deer this year.

Liz is fifteen years old and freshman this year. Though school is not her favorite, she has started at the same new school as Emily and has adjusted well. She is looking at either going into the military or starting her own business. Her volleyball team made it to the championship this year. Right now, she is helping with basketball. She likes spending time on the lake, hunting, and hanging out with her friends.
